

Public Notice

Lakeside Marina Amendments to Terms & Conditions - 2021

The Municipality of Leamington is working to ensure that the public, workers and work sites are safe and free of hazards presented by COVID-19. The Municipality has assessed the workplace and functions carried out by Lakeside Marina staff to ensure appropriate action is taken to protect against these hazards, like physical distancing, a contactless environment, proper hand hygiene, and keeping surfaces and objects clean, while limiting contact with potentially infected people or unknown carriers. The Municipality reserves the right to modify the controls at any time to address the changing health and safety environment.

This Notice is to advise you of the affected services and the rules and conditions that will be in place at the Lakeside Marina at the beginning of this season. Please note that this Notice amends any previous agreements to provide services as well as the Lakeside Marina rules and conditions.

- While at the Lakeside Marina, maintain a physical distance by staying 2 metres (approximately 6 feet) apart from others.
- In addition to physical distancing, mask use is required on-site while using washroom facilities, at the boat ramps and at the fueling and pump-out stations. This is for the safety of those in these areas where physical distancing is not always guaranteed, due to the nature of the services in these zones.
- The Lakeside Marina office hours will be:
 - Daily, beginning May 1 to October 15, 2021
 - Boaters can access the Lakeside Marina office only by the window for payments.
- Cash is no longer accepted for any transaction and alternative contactless payment options will be available, therefore fuel purchases are not eligible for cash discounts.
- Other facilities will remain closed to boaters and the public, including the pavilion, the lounge and showers; and there will be no concessions offered.
- Launching and docking assistance will be available at the boat ramp and the docks.
- Fuel and pump-out services are available with the following conditions:
 - Radio ahead for service;
 - Two boats at a time; and
 - Boaters must stay clear of the marked, employee areas while being serviced.
- As the health and safety environments change, controls may change as well.
